

# Type II Ambulances

Engineered for Safety. Designed for Performance.

**CONVERSIONS**

At FR Conversions, we engineer high-performance, cost-effective Type II ambulances designed for EMS professionals, by EMS professionals.

Whether you're a dealer seeking a competitive model or a hospital needing a reliable fleet, our ambulances deliver best-in-class safety, efficiency and durability to meet the demands of medical transport.

FR offers the only dynamically crash-tested Type II ambulances on the market.

Our vertically integrated manufacturing reduces costs, speeds up production and ensures top-quality craftsmanship—so your ambulances are built faster, better and more reliably.

## Why Choose FR?

*We deliver high-quality, cost-effective and spacious Type II ambulances designed for safety, efficiency and fleet reliability.*

### ✓ LOWER COSTS

40¢ less per mile to operate than any other Type II, delivering major savings across fleets

### ✓ EFFICIENT DESIGN

Lightweight aluminum construction improves fuel economy, while an O<sub>2</sub> system with auto-shutoff prevents costly waste

### ✓ UNMATCHED SAFETY

The only dynamically crash-tested Type II available, ensuring top-tier protection for crews and patients

### ✓ BUILT FOR EMTs

More outlets, secure storage, thoughtful interiors and advanced climate control for optimal job performance and patient care

## OUR VEHICLES

# FR Conversions Type II Ambulances

Offering a full lineup of Type II ambulances designed for Basic Life Support (BLS), Advanced Life Support (ALS) and Non-Emergency Medical Transport (NEMT) — each built for safety and EMT-focused functionality.

### Intrepid

Most efficient Transit on the market, with wide floor and large cabinet areas. Best-in-class value with comfortable patient area.

**FORD TRANSIT**

### Pioneer II

The original, most efficient, feature-packed Type II. Spacious and reliable. Smart electrical systems save power and increase fuel efficiency.

**RAM PROMASTER**

### Pioneer II Elite

The most capable Type II on the market, with an additional 18" vehicle length for spacious patient and cab areas.

**RAM PROMASTER**

### Pioneer II XL

Our original Pioneer II improved with upgraded features including a new ergonomic interior, expanded width for bariatric care and supplemental air conditioning.

**RAM PROMASTER**

## QUALITY & CERTIFICATIONS
