

TRUSTED BY THE TOUGHESTTM

MUNICIPAL

BORN TO PERFORM

With a legacy and passion to deliver mission-critical durability, Wheeled Coach ambulances are born to perform under the most demanding conditions—and built to be as unbreakable as the spirit of those we serve.

That's why every day, leading fire departments and municipalities around the country put their trust in

Wheeled Coach. They count on our reliable, hard-working ambulances to meet and exceed the rigors of service they encounter, keeping responders and occupants safe. With a focus on innovating products that perform, we bring you more industry-first features than any other brand.

We stand with you every day, ready to serve. It's why we are truly **Trusted by the Toughest.**

TRUSTED BY THE TOUGHEST

TYPE I AMBULANCES

WORK-HORSE TOUGH & READY TO SERVE YOU

When every mission is critical, you need dependable products that perform and endure. Wheeled Coach ambulances deliver the ultimate in durability, which comes from years of real world experience operating in the harshest conditions. We have built and delivered more than 50,000 ambulances and rescue vehicles around the world, which means you're more likely to see a Wheeled Coach ambulance on the road today than any other brand. We invest in the latest technology and manufacturing processes to build rock-solid Type I fire service and EMS ambulances that take

on the most demanding conditions. Using the most advanced CNC equipment and processes, we fabricate every Wheeled Coach ambulance body to ensure we achieve the highest levels of precision and quality every time. The Type I stands with you, ready to serve every day.

Type I Model Specifications

	Chassis	Model	Length	Width
Chevy	3500	1148	148"	90"
	3500	1153	153"	95"
Dodge	4500	1153	153"	95"
	4500	1170	170"	95"
Ford	5500	1170	170"	95"
	F350	1148	148"	90"
	F350	1153	153"	95"
	F450	1153	153"	95"
	F450	1170	170"	95"
	F550	1170	170"	95"

TYPE III AMBULANCES

PERFORMANCE UNDER PRESSURE

Confidence comes standard with our built-tough Type III fire service and EMS ambulances. Wheeled Coach Type III is specially engineered to perform in the most challenging conditions, while delivering the reliability you need in the field. A fully extruded body protects battle-tested responders, seasoned by

countless calls, as they navigate congested city streets or rural back roads. Even more peace of mind comes with our limited lifetime electrical warranty—we have your back during those rare moments of downtime. It's one of the many ways Wheeled Coach ambulances perform under pressure day in and day out.

Type III Model Specifications

	Chassis	Model	Length	Width
Chevy	G3500	3148	148"	90"
	G3500	3153	153"	95"
	G4500	3165	165"	95"
	G4500	3170	170"	95"
Ford	E350	3148	148"	90"
	E350	3153	153"	95"
	E450	3165	165"	95"
	E450	3170	170"	95"

MEDIUM DUTY AMBULANCES

TRUST YOUR MISSION TO US

Coast to coast, municipalities depend on our Medium-Duty ambulances in their vital, life-saving work. We understand every department has its own unique requirements and needs when it comes to their emergency vehicles. That's why we build flexibility and superior performance into every

ambulance we manufacture. What sets Wheeled Coach apart is the ability to build your customized ambulance time and again with laser-focused consistency and precision, whether you order 20 units all at once or 20 units over the course of several years. You can trust your mission to Wheeled Coach.

WHEELED COACH INNOVATIONS

A LEGACY THAT CONTINUES TO LEAD

Wheeled Coach focuses on developing product innovations that protect patients and EMS providers, and delivers exceptional value on your fleet investment.

Cool-Bar™

This patented external condenser is mounted on the front of the body for easy access, greatly improving condensing capability and BTU capacity with 50% greater air flow. It also enables multiple emergency vehicle lighting options for maximum visibility and flexibility.

ToughCoat™ Paint Process

Our unique nine-step process employs precision application standards centered around a revolutionary high-tech primer with adhesion and anti-corrosive properties never before achieved for a super tough, long-lasting finish.

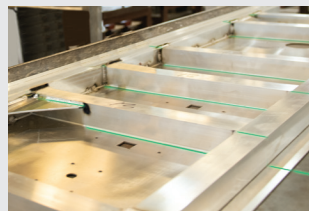

Per4Max® Controlled Decelerator

This 4-point restraint system features technology to control deceleration in the event of a crash with a one-buckle design for easy on and quick egress.

TrueForm™ Wall Construction

This precision assembly process incorporates our StraightLine™ Laser-guided Fixture Alignment to create accurate, square, repeatable frames that fit every time.

AntiCor™ Protection System

Layer upon layer of anti-corrosion features, like our one-piece aluminum skins, DuraSeam door system, engineered pre-paint pre-punched holes, SermaGard® ceramic coated bolts, nine-step ToughCoat™ Paint Process and more, that together stand up stronger to the most demanding conditions.

Safeguard Box Frame™

Using advanced processes that ensure the highest quality, repeatable results and precision, we build a highly reinforced, but ultra-light roll cage superstructure with strategically positioned metal bars, creating one of the strongest, safest and most durable ambulance bodies around.
